

**AMENDMENTS TO THE SPECIFICATION**

**Please replace the last paragraph on page 9 continuing onto page 10 with the following replacement paragraph.**

In this step, the line 30 between the user terminal 14 and the address server 15 need not to be a telephone line, nor a packet line, but may be the Internet for convenience. When the user terminal obtains the address, the user terminal 14 establishes a connection with a destination user terminal 12 using a normal telephone line connection operation to perform communication with the destination user terminal.
